

TECHNICAL GUIDE

TRADITIONAL 2500

A+

The Traditional 2500 is a revolutionary system that offers the best in weather-proofing technology, energy efficiency and security. Years of research and development has resulted in a technically advanced system ideal

for commercial projects. Equal sightlines give a cleaner view inside and out for style and elegance, and 18 colourways from stock means you can sell colour with ease.

weather performance

The Traditional 2500 multi-function weatherseal is at the cutting edge of modern design and material technology. The unique design ensures unrivalled weather performance and provides a significant reduction in the everyday strain placed on hardware, which in turn increases the lifespan of the window. The weatherseal is also welded at the corners providing a continuous seal further improving the insulating properties of the product.

security

The Traditional 2500 window and door system is fully compatible with all standard security hardware, with both windows and doors achieving enhanced security standard PAS 24.

insulation

The Traditional 2500 window and door system far exceeds all requirements of not only today's Building Regulations but also future revisions.
